

Prepare Petaluma Resource Questionnaire

Prepare Petaluma is a coalition of volunteers and organizations working with the City of Petaluma's Emergency Operation Center (EOC) to help the City Emergency Operations Center have access to the broad range of resources, volunteers and networks of support that exist here in our community in the event of an emergency or natural disaster. As part of that project we are gathering resource information from the nonprofit, business, faith and neighborhood sectors of the community. The resource information gathered will be kept in a data base for the city of Petaluma Emergency Operations Center.

Attached is a resource information questionnaire designed to help the EOC know "who has what" regarding facilities, equipment, transportation and information support as well as volunteer teams and volunteer capacity. The information gathered will be forwarded to the City of Petaluma EOC team leaders (Pamela Robbins in the Department of Human Resources and Mike Ahlin in the Fire Department). The information you give us will not be shared with the public at large.

If you think there are other organizations or groups that could add to this resource information, please feel free to forward this resource questionnaire to them. If you have a complete emergency plan and would prefer to share the whole plan with the Prepare Petaluma Team rather than complete the resource information that follows, that is an EXCELLENT alternative.

If you have any questions or concerns about this questionnaire or project, please contact Pat Landrum at The Healthy Community Consortium by e-mail at Pat@healthycommunity.info or by phone 778-4951. Thank you!
